

SHARUKASH T

Full Stack Developer Intern | Data Engineer Intern

Madurai, India | +91 6379009129 | sharukasht@gmail.com | linkedin.com/in/sharukash

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with three internships spanning Data Science and Full Stack Development. Hands-on experience building REST APIs with Flask, developing React-based interfaces, and working with SQL, PL/SQL, Oracle, AWS, and Snowflake for data engineering tasks. Strong foundation in database design, cloud data platforms, and dashboard development, with a track record of delivering functional, data-driven applications under tight timelines.

TECHNICAL SKILLS

Languages: Python, SQL, PL/SQL, JavaScript, HTML, CSS

Frontend Development: React.js, HTML5, CSS3, JavaScript

Backend Development: Flask, REST API Design & Development

Data Engineering & Cloud: AWS, Snowflake, Oracle Database 21c, MySQL, DBeaver

Data Analytics & BI: Power BI, Tableau, Microsoft Excel

Tools & Platforms: Git, GitHub, Linux (Basic)

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Vulture Tech Lines

Jun 2026 – Jul 2026

Coimbatore, India

- Built a Smart Hospital Waste Management System with a React.js frontend and Flask REST APIs, enabling real-time tracking of waste collection and disposal.
- Designed the underlying SQL database schema to store and manage waste-tracking records, improving data accuracy and retrieval speed.
- Developed and integrated RESTful API endpoints connecting the frontend to backend services, and used Git for version control in a collaborative team workflow.

Data Scientist Intern — Ekhai Business Services

Aug 2025 – Sep 2025

Kanyakumari, India

- Built a Dynamic Pricing Dashboard using Python and SQL to analyze historical pricing trends and support data-driven pricing decisions.
- Performed data cleaning, transformation, and exploratory analysis on large datasets to uncover pricing patterns.
- Designed interactive visualizations to present pricing insights clearly to non-technical stakeholders.

Data Scientist Intern — OneYes InfoTech Solutions

Jun 2025 – Jul 2025

Chennai, India

- Developed a Medicine Prediction Dashboard using Python and SQL to forecast medicine demand and usage trends.
- Queried and managed datasets using Oracle Database 21c and DBeaver for efficient data extraction and analysis.
- Built Power BI dashboards to present predictive insights, supporting data-informed decision-making.

EDUCATION

B.E., Computer Science and Engineering

Expected 2027

NPR College of Engineering and Technology (Autonomous), Anna University

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (Forage)
- Tableau Certification
